Welcome!

We are happy to have you staying at our home. This document has all the information and quirks of the space you might want to know.

Getting Here

Address

402 4th St NE Washington, DC 20002

Where to park

While there is no designated parking for the home, there is ample street and garage parking in the immediate area:

Street Parking

Please note that much of the street parking is signed for residents only (you WILL get a ticket if you park in these red-signed zones without a permit). That said, there are several areas signed in green for overnight parking and two-hour parking during the day. If you park on the street, be sure to bring all valuables inside the home with you and don't leave anything valuable visible within your car.

Garage Parking

If you would like to forego street parking, there are several garages within a 10-15 min walk of the home. We recommend dropping off your luggage first, then driving to one of the nearby garages, such as Colonial Parking.

Public Transportation

If you don't have a car (or would like to keep it parked during your stay), DC offers a wonderful public transportation network that will help you reach nearly any part of the city or surrounding area. Here is a breakdown of the nearby transport options, all of which can be accessed using a SmarTrip Card available at any of the nearby Metro stations:

Metro Stations

- **Union Station** is serviced by the Metro red line and regional trains

Bus Stations

- We find that Google Maps is the best for identifying nearby bus stations and routes.

Getting inside

The home is located just off of the corner of 4th and D streets, pictured in red brick below:

🔑 Smart lock

The door smart lock on the door. Check your messages for a code for the keypad on the side of the door. It is a 4 digit code followed by the check mark.

The door automatically locks after 30 seconds!

The Home

💻 Internet

- Wi-Fi network: Cortado_Stanton_Park
 - Be sure to connect to the 5G version for the fastest speeds!

- Wi-Fi password: Cortado0!

Resetting the Router - If you need to reset the router, it is located in the main dining room by the window. Please wait 10 full seconds before plugging it back in.

Trash

The home's trash and recycling containers are located to the rear on the wooden patio area. For longer stays, you can place them at the corner of D and 4th street on Tuesdays and Thursdays.

Kitchen

The kitchen comes fully equipped with stainless steel appliances and all of the cookware and dinnerware you will need for your stay. If there is any food left in the cupboards, please feel free to help yourself!

Appliances - If any of the plug-in appliances aren't working during your stay, please try resetting the outlet they are plugged into before contacting your host 😊

Coffee ☕

This home has a Mr. Coffee coffeemaker for drip coffee. If you run out of filters, they are sold at the nearby Whole Foods and Trader Joe's.

Dishwasher 🍔

Please only use the dishwasher pods provided to wash dishes during your stay. Using common dish soap in the dishwasher WILL cause it to break, and guests will be responsible for any related repair costs.

Garbage Disposal

The home's garbage disposal can only handle small (think dime-sized) pieces of wet food waste:

- Keep the faucet running while using the garbage disposal
- Do NOT place any trash or large food items in the sink — these belong in the trash can.

Laundry

The home comes equipped with a separate washer & dryer located in the basement bathroom. Both are free for guests to use, and we have stocked the area with limited dryer sheets and laundry detergent pods!

Thermostat

The thermostat is located in the main hallway and is typically set to 68 during the winter and 72 during the summer months. Please reset the thermostat accordingly upon your departure.
